

A specialist training company

with three core benefits

choice

advice

value

focus
on project management

Best Practice Project Delivery

Project methods based on proven Best Practice; personal skills developed through accredited training; these lay the foundation for project success.

PRINCE2 M_o_R APM MSP P30 PMI

focus
on IT service management

Efficient & Effective IT Services

IT Services have become so pervasive that IT delivery is critical to business success. Focus specialises in ITIL but also has training to support leading IT technology and software.

ISEB Cisco CompTIA ITIL Citrix Microsoft

We make finding high quality training easy

With over 8,000 courses at venues across the UK, user friendly on-line course booking, and knowledgeable training consultants to assist. We can also arrange to deliver our courses at your own premises - typically saving you money when you have at least 6 delegates.

"The PRINCE2 course itself was excellent. Your company was a pleasure to deal with and I look forward to booking with you again."

Director, 360E, Business & Project Management Consultancy

"I am very impressed by Focus on Training's level of customer service and responsiveness."

Learning Evaluator, Sussex Police

choice

More provider choice means the right training, at the right location on the right dates.

The highest quality training

- > Focus trainers are independently appraised and accredited
- > Feedback is analysed to help improve courses, training and venues

Twice the course options of the top 4 providers combined

- > The Focus course database is the most comprehensive in the UK: over 8,000 events can be explored and booked on-line.
- > In London alone, Focus offers 80 course options per week.

50 accredited training partners

- > Focus represents most PRINCE2 and ITIL training companies in the UK and Ireland
- > There are over 300 venues from Truro to Inverness

focus
on training

advice

Independent advice and guidance, including introductory guides on the leading professional qualifications.

Learning tracks explained

- > Authoritative Guides to topics including PRINCE2, ITIL, MSP and Business Analysis are available on the Focus website
- > The IT Certification Tracks website feature explains the requirements for common qualifications such as MCTS, CCNA and A+

Online assessment tools

- > Use on-line assessment tools to gauge capability and exam readiness
- > Focus will also arrange assessment of training needs at a business level if required

Specialist training advisors

- > Knowledgeable training advisors offer truly independent advice
- > If necessary they can help you by quickly accessing the widest network of training specialists in the UK

Best value, with pricing that typically saves you over 20%

value

Your training budget goes further

- > Focus passes on its volume discounts
- > Your budget is concentrated where it delivers results

Training administration is reduced

- > You can quickly explore all the viable options
- > Booking is fast, simple and on-line

Your risk is minimised

- > No minimum commitment. No annual fee
- > You know you will be dealing with high quality trainers
